

DI CASA

Digital Christmas Edition 2022

Emotions to inhabit

It will be a special
Christmas in many ways.
We are concrete, we
make furniture, **we believe**
in emotions to inhabit.
We thought we would open
the doors of our London
apartment, sharing with
you the philosophy of **Total**
Living wrapped in that special
atmosphere that will warm
your soul.

Ginger bells!

Holidays are the ideal time to carve out time to devote to our passions. The shopping list should not lack the necessary ingredients to get the worktop busy and involve the whole family in the different stages of preparation, because after all, **the kitchen is the beating heart of the home!**

The Class model is perfect for those who like to project with taste and practicality their own spaces. Characteristic of the model is the **framed door** that, with its proportions and geometry, reinterprets the classic style in a contemporary key.

The dining table, in these days of the holiday season, gets prepared for moments of conviviality and takes on an even more enveloping atmosphere: properly set, it brings families and friends together for dinners, lunches and much-loved tabletop games.

**Together
is better!**

The **Trenta** bookcase is the key element around which you can design the living area. The new lighting system, **Dual Color**, can be integrated with the Plus sides and shelves of the bookcase. It allows you to adjust the intensity and color of the light, changing the atmosphere depending on the time of day. How? It's very simple, you can even control it from the sofa using the handy remote control.

The **Bliss table**, available in different sizes with a fixed or extendable top and in rectangular or barrel profile, dialogues with the **Nives armchairs**, creating solutions of strong impact.

Your place in the front row!

Whether it's a TV series marathon or the gift exchange, **sharing is under the spotlight.** Even if guests have stolen your best seat, don't worry because all our seating are comfortable, even the ottomans.

Seats and backrests with a sinuous progression make **Tribeca** a sofa with great character. Its design represents the perfect synthesis of traditional lines, tailoring and comfort.

Furnish the center of the room with our selection of coffee tables. Available in a variety of shapes, sizes and materials. They characterize the room with extreme versatility adapting to any space and creating harmony in the environment. It's an element of conjunction between the sofa, armchairs and ottoman, offering a useful tabletop full of personality.

LIBESKIND022

is the sculptural sideboard: the appearance of the door changes accordingly with light and shadows, creating three-dimensional volumes that capture the attention.

A precious toast!

The perfect oasis to impress your guests with your own bar corner: you don't need to be a connoisseur, you just need to be willing to toast together, all in the right "spirit."

The excitement of waking up before everyone else, to catapult ourselves in search of the best gift Santa has left for us under the tree. Even if we sleep in a bigger bed, let us never forget the child in us.

All adults have
been children
once

The **Lewitt doors** make the closet unique, with a full-height groove and the **Lumia handles** with illuminated profiles, they become a decorative and functional element that makes the environment intimate and discreet.

Make your bedroom even cozier with the **Desire** headboard. The padded support is covered with a soft fabric and offers comfortable support for those who like to read until late.

The **Gae bedroom set**, in suspended version, gives an essential look to the bedroom, ensuring greater usability and visual cleanliness.
