

DINING.

DINING.

L’abitazione è un luogo di comfort che esprime le nostre passioni e il modo in cui viviamo, uno spazio che definisce la nostra quotidianità.

Febal Casa, per la zona dining, propone una collezione disegnata intorno alle esigenze umane e ai luoghi del vivere contemporaneo.

Le forme e l’estetica dei prodotti si arricchiscono di nuovi e poetici significati.

Le funzioni, al centro del progetto, si esprimono nell’efficienza e nella virtù di variabili modulari e utili accessori.

The home is a haven of comfort that reflects our passions and how we live, a space that defines our everyday life.

For the dining area, Febal Casa proposes a collection based on human needs and contemporary living spaces.

The products take on new and lyrical meaning through their design and shape.

Functions, the core of the design, are expressed in the effectiveness and virtue of modular variables and practical accessories.

TAVOLI

TABLES

Forme rettangolari, circolari ed ellittiche caratterizzano le superfici dei tavoli Febal Casa disegnando le proporzioni della convivialità. L’ergonomia mostra il rispetto per il comfort e per l’esperienza di utilizzo. Il disegno esalta la diversità estetica dei prodotti, proponendo dall’elegante semplicità all’eclettica struttura scultorea. La flessibilità dell’abitare, plasmata in prodotto, è in grado di offrire variazioni e possibilità compositive al nostro dining, concretizzandosi in una collezione varia di tavoli fissi e allungabili.

The rectangular, round and oval surfaces of Febal Casa tables define the proportions of conviviality. The ergonomics show respect for comfort and the user experience. The design enhances the products’ diverse visual appeal, suggesting everything from elegant simplicity to eclectic sculptural form. The product is styled with flexible living in mind, offering a wide range of fixed and extendable tables to suit a variety of possible dining compositions.

SEDIE/ POLTRONCINE

CHAIRS/ ACCENT CHAIRS

Tessuti accuratamente selezionati e gambe filiformi esprimono l’eleganza delle sedute di Febal Casa.

Linee curve e forme razionali spingono il disegno ad assecondare lo spazio architettonico a cui sono destinate.

Poltroncine e sedie consentono composizioni eclettiche in grado di adornare la zona dining perseguendo scopi estetici e funzionali.

Sgabelli con strutture variabili completano una gamma volta ad arredare la totalità dell’abitazione, raggiungendo piani di appoggio posizionati ad altezze generose.

Carefully selected fabrics and filiform legs express the elegance of Febal Casa seating.

Curved lines and rational forms inspire the design to indulge the architectural space they were made for.

Accent chairs and dining chairs allow for eccentric compositions that decorate the dining room in pursuit of visual appeal and practicality.

Adjustable stools round out a collection designed to furnish the entire home, reaching surfaces positioned at generous heights.

MADIE SIDEBOARDS

La funzione contenitiva si arricchisce di ingredienti estetici e si materializza nella collezione di madie proposte da Febal Casa. Dagli arredi impreziositi dal singolo ed essenziale dettaglio alle architettoniche sculture delle ante fino ad arrivare alle vetrine in metallo, ogni desiderio viene esaudito e custodito all’interno di questi prodotti che completano la zona dining. Le finiture e le infinite colorazioni rendono questo prodotto una chiave stilistica in grado di trasformare uno spazio in ciò che possiamo con calore definire “casa”.

The Febal Casa range of sideboards takes the practicality of storage and adds a dash of style. Furnishings embellished with a single, essential detail, architecturally sculptured doors and metal glass units, where every desire is fulfilled and stored inside these products completing the dining area. The range of finishes and infinite colours create a stylistic product that transforms the space into a place we love to call “home”.

COFFEE TABLES

Un oggetto intorno al quale si disegna la quiete e si genera lo svago, il tavolino per Febal Casa si posiziona al centro delle esigenze umane. Un prodotto necessario e spazioso, che grazie alla superficie d'appoggio si offre a materiali e colori per decorare il lato diurno di una residenza.

La fluidità di utilizzo conduce ad una gamma variegata fatta di forme e dimensioni che ci invitano oltre i confini del living, fino a raggiungere un utilizzo all'interno della totale superficie abitativa.

Designed to convey tranquillity and generate leisure, the Febal Casa occasional table is positioned at the centre of human needs. A functional and spacious product with a support surface that provides materials and colours to embellish the daytime side of a home.

The freedom of use leads to a broad range of shapes and sizes inviting us beyond the confines of the living room, into the rest of home.

RISPETTO DELL'AMBIENTE

RESPECT FOR THE ENVIRONMENT

MATERIALI ECO-FRIENDLY

Utilizziamo vetro e alluminio, riciclabili all'infinito per realizzare prodotti resistenti e di grande impatto estetico, e PET per superfici sicure che non rilasciano alcuna emissione tossica durante il ciclo di produzione e utilizzo.

ECO-FRIENDLY MATERIALS

We use glass and aluminium, infinitely recyclable materials to develop resistant products with a high visual impact, and PET for safe surfaces without toxic emissions either during production or use.

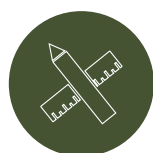

ATTITUDINE GREEN-LIVING

Abbiamo azzerato l'utilizzo della plastica negli uffici e nella produzione installando distributori d'acqua e recuperiamo tutti i rifiuti che produciamo con la nostra attività industriale.

GREEN-LIVING ATTITUDE

We have eliminated the use of plastic in our offices and production department by installing water dispensers, and recover all the waste we produce through our industrial activities.

PROGETTI SPECIALI

Aderiamo al Furniture Pact, un progetto ideato dal Sustainability Lab di SDA Bocconi School of Management, che mira a supportare le aziende della filiera del legno-arredo verso l'adozione di modelli gestionali sempre più sostenibili.

SPECIAL PROJECTS

We are joining the Furniture Pact, a project conceived by the Sustainability Lab of SDA Bocconi School of Management, which aims to support companies in the wood-furniture supply chain toward the adoption of increasingly sustainable management models.

TRASPORTO

Organizziamo le spedizioni ottimizzando gli spazi e i percorsi delle consegne per ridurre le emissioni di CO₂ sul pianeta.

TRANSPORT

We organise shipments by optimising space and delivery routes to reduce CO₂ emissions on the planet.

OTTIMIZZAZIONE DEGLI SPAZI

Riduciamo lo spreco dei materiali da costruzione ottimizzando gli spazi con le nostre soluzioni di arredo che si adattano alle diverse architetture grazie alla loro ampia modularità e personalizzazione.

SPACE OPTIMISATION

We reduce building material waste by optimising spaces with our own furniture solutions, perfectly adaptable to different architectures thanks to their extensive modularity and customisation.

LOGISTICA INTERNA

Abbiamo ottimizzato tutte le movimentazioni all'interno dell'azienda per ridurre al minimo lo spreco di risorse energetiche e la produzione di CO₂.

INTERNAL LOGISTICS

We have optimised all internal company logistics to reduce energy wastage and CO₂ production to a minimum.

INNOVAZIONE

Siamo sempre alla ricerca di materiali e materie prime uniche che ci permettono di proporre sul mercato prodotti di alta qualità dal design distintivo. Abbiamo introdotto un sistema di intelligenza artificiale che pianifica la produzione, massimizza la produttività e facilita le operazioni di logistica e smistamento riducendo, in maniera significativa, gli sprechi.

INNOVATION

We are always on the lookout for unique and raw materials allowing us to offer the market high-quality products with a signature design. We have introduced an artificial intelligence system that plans production, maximizes productivity and facilitates logistics and sorting operations by reducing waste significantly.

ECONOMIA CIRCOLARE

Produciamo strutture e ante in nobilitato costituite da pannelli ecologici provenienti da fornitori certificati FSC® che utilizzano legno pre e post-consumo a cui viene data una seconda vita in virtù di un’economia circolare che si autoalimenta, senza andare a intaccare il nostro patrimonio forestale.

CIRCULAR ECONOMY

We produce melamine-faced structures and doors consisting of ecological panels produced by FSC® certified suppliers who use pre- and post-consumer wood, which is given a second life thanks to a self-perpetuating circular economy, without impacting our existing forests.

DIAGNOSI ENERGETICA

Monitoriamo costantemente i consumi totali e definiamo azioni di miglioramento sistemico per ottimizzare il nostro impatto energetico.

ENERGY DIAGNOSIS

We constantly monitor our total consumption and define systemic improvement actions to optimise our energy impact.

UNI EN ISO 14001

Abbiamo certificato il nostro sistema di gestione ambientale in conformità agli standard alla norma uni en iso 14001.

UNI EN ISO 14001

We have certified our environmental management system in compliance with standard UNI EN ISO 14001.

IMBALLAGGI

Impieghiamo solo cartoni realizzati con carta riciclata, riducendo progressivamente l'uso della plastica per sostituirla completamente con materiali green.

PACKAGING

We use only boxes made of recycled paper, gradually reducing the use of plastic, to be completely replaced with eco-friendly materials.

DURABILITÀ DEI PRODOTTI

Progettiamo prodotti con una maggiore vita utile per ridurre i rifiuti e offrire alti standard qualitativi.

PRODUCT DURABILITY

We design products that last longer to reduce waste and offer high quality standards.

TECNOLOGIE GREEN

Scegliamo materiali naturali al 100% resi straordinari da processi innovativi come la tecnologia di sinterizzazione che permette di creare pietre ceramiche senza l'utilizzo di colle e sostanze inquinanti. Abbiamo adottato l'utilizzo di vernici bio certificate Greenguard che garantiscono basse emissioni e una migliore qualità dell'aria negli ambienti domestici.

GREEN TECHNOLOGIES

We chose 100% natural materials with an excellent performance from innovative processes such as sintering technology which allows ceramic stone to be created without using adhesives or polluting substances. We have adopted the use of Greenguard-certified organic paint that ensure low emissions and better air quality in home environments.

FEEL THE PLANET.

ART DIRECTION

Arch. Paolo Colombo

Paolo Colombo è nato a Milano il 21 maggio 1970 e si è laureato al Politecnico di Milano nel luglio 1998.

Ha fondato piu’ di 15 anni fa A++, studio multidisciplinare che si occupa di tutto cio’ che riguarda lo spazio del vivere “umano”: dal design di prodotto, alla comunicazione, dall’architettura di interni fino alla pianificazione urbanistica.

Un progetto, quello di A++ che ha visto una crescita esponenziale, arrivando oggi a contare 9 uffici nel mondo con un team di piu’ di 150 persone.

Questo è stato reso possibile soprattutto grazie ad una visione nella quale il processo creativo è il risultato di un flusso libero attraverso diverse culture, discipline e competenze, mantenendo sempre l’uomo e le sue esigenze come centro imprescindibile del progetto.

www.a2plus.green

Paolo Colombo was born in Milan on May 21st 1970 and graduated from the Milan Polytechnic in July 1998.

He founded A++ more than 15 years ago, a multidisciplinary studio that deals with everything related to the “human” living space: from product design, to communication, from interior architecture to urban planning.

A project, such as A++ has seen an exponential growth, arriving today to count 9 offices accross the globe with a team of more than 150 people.

This was made possible above all thanks to a vision in which the creative process is the result of free flow through different cultures, disciplines and skills, always keeping as a key player in the project man and his needs.
