# RISPETTO DELL'AMBIENTE

## RESPECT FOR THE ENVIRONMENT

### MATERIALI ECO-FRIENDLY

Utilizziamo vetro e alluminio, riciclabili all'infinito per realizzare prodotti resistenti e di grande impatto estetico, e PET per superfici sicure che non rilasciano alcuna emissione tossica durante il ciclo di produzione e utilizzo.

### ECO-FRIENDLY MATERIALS

*We use glass and aluminium, infinitely recyclable materials to develop resistant products with a high visual impact, and PET for safe surfaces without toxic emissions either during production or use.*

### ATTITUDINE GREEN-LIVING

Abbiamo azzerato l'utilizzo della plastica negli uffici e nella produzione installando distributori d'acqua e recuperiamo tutti i rifiuti che produciamo con la nostra attività industriale.

### GREEN-LIVING ATTITUDE

*We have eliminated the use of plastic in our offices and production department by installing water dispensers, and recover all the waste we produce through our industrial activities.*

### TRASPORTO

Organizziamo le spedizioni ottimizzando gli spazi e i percorsi delle consegne per ridurre le emissioni di CO<sub>2</sub> sul pianeta.

### TRANSPORT

*We organise shipments by optimising space and delivery routes to reduce CO<sub>2</sub> emissions on the planet.*

### OTTIMIZZAZIONE DEGLI SPAZI

Riduciamo lo spreco dei materiali da costruzione ottimizzando gli spazi con le nostre soluzioni di arredo che si adattano alle diverse architetture grazie alla loro ampia modularità e personalizzazione.

### SPACE OPTIMISATION

*We reduce building material waste by optimising spaces with our own furniture solutions, perfectly adaptable to different architectures thanks to their extensive modularity and customisation.*

### LOGISTICA INTERNA

Abbiamo ottimizzato tutte le movimentazioni all'interno dell'azienda per ridurre al minimo lo spreco di risorse energetiche e la produzione di CO<sub>2</sub>.

### INTERNAL LOGISTICS

*We have optimised all internal company logistics to reduce energy wastage and CO<sub>2</sub> production to a minimum.*

### INNOVAZIONE

Siamo sempre alla ricerca di materiali e materie prime uniche che ci permettono di proporre sul mercato prodotti di alta qualità dal design distintivo. Abbiamo introdotto un sistema di intelligenza artificiale che pianifica la produzione, massimizza la produttività e facilita le operazioni di logistica e smistamento riducendo, in maniera significativa, gli sprechi.

### INNOVATION

*We are always on the lookout for unique and raw materials allowing us to offer the market high-quality products with a signature design. We have introduced an artificial intelligence system that plans production, maximizes productivity and facilitates logistics and sorting operations by reducing waste significantly.*

### ECONOMIA CIRCOLARE

Produciamo strutture e ante in nobilitato costituite da pannelli ecologici provenienti da fornitori certificati che utilizzano legno pre e post-consumo a cui viene data una seconda vita in virtù di un'economia circolare che si autoalimenta, senza andare a intaccare il nostro patrimonio forestale.

### CIRCULAR ECONOMY

*We produce melamine-faced structures and doors consisting of ecological panels produced by certified suppliers who use pre- and post-consumer wood, which is given a second life thanks to a self-perpetuating circular economy, without impacting our existing forests.*

DIAGNOSI ENERGETICA

Monitoriamo costantemente i consumi totali e definiamo azioni di miglioramento sistemico per ottimizzare il nostro impatto energetico.

ENERGY DIAGNOSIS

*We constantly monitor our total consumption and define systemic improvement actions to optimise our energy impact.*

UNI EN ISO 14001

Abbiamo certificato il nostro sistema di gestione ambientale in conformità agli standard alla norma uni en iso 14001.

UNI EN ISO 14001

*We have certified our environmental management system in compliance with standard UNI EN ISO 14001.*

IMBALLAGGI

Impieghiamo solo cartoni realizzati con carta riciclata, riducendo progressivamente l'uso della plastica per sostituirla completamente con materiali green.

PACKAGING

*We use only boxes made of recycled paper, gradually reducing the use of plastic, to be completely replaced with eco-friendly materials.*

DURABILITÀ DEI PRODOTTI

Progettiamo prodotti con una maggiore vita utile per ridurre i rifiuti e offrire alti standard qualitativi.

PRODUCT DURABILITY

*We design products that last longer to reduce waste and offer high quality standards.*

TECNOLOGIE GREEN

Scegliamo materiali naturali al 100% resi straordinari da processi innovativi come la tecnologia di sinterizzazione che permette di creare pietre ceramiche senza l'utilizzo di colle e sostanze inquinanti. Abbiamo adottato l'utilizzo di vernici bio certificate Greenguard che garantiscono basse emissioni e una migliore qualità dell'aria negli ambienti domestici.

GREEN TECHNOLOGIES

*We chose 100% natural materials with an excellent performance from innovative processes such as sintering technology which allows ceramic stone to be created without using adhesives or polluting substances. We have adopted the use of Greenguard-certified organic paint that ensure low emissions and better air quality in home environments.*

#### ART DIRECTION

Arch. Paolo Colombo

Paolo Colombo è nato a Milano il 21 maggio 1970 e si è laureato al Politecnico di Milano nel luglio 1998.

Ha fondato piu' di 15 anni fa A++, studio multidisciplinare che si occupa di tutto cio' che riguarda lo spazio del vivere "umano": dal design di prodotto, alla comunicazione, dall'architettura di interni fino alla pianificazione urbanistica.

Un progetto, quello di A++ che ha visto una crescita esponenziale, arrivando oggi a contare 9 uffici nel mondo con un team di piu' di 150 persone.

Questo è stato reso possibile soprattutto grazie ad una visione nella quale il processo creativo è il risultato di un flusso libero attraverso diverse culture, discipline e competenze, mantenendo sempre l'uomo e le sue esigenze come centro imprescindibile del progetto.

*Paolo Colombo was born in Milan on May 21st 1970 and graduated from the Milan Polytechnic in July 1998.*

*He founded A++ more than 15 years ago, a multidisciplinary studio that deals with everything related to the "human" living space: from product design, to communication, from interior architecture to urban planning.*

*A project, such as A++ has seen an exponential growth, arriving today to count 9 offices accross the globe with a team of more than 150 people.*

*This was made possible above all thanks to a vision in which the creative process is the result of free flow through different cultures, disciplines and skills, always keeping as a key player in the project man and his needs.*
