

# Di Casa

# WHERE YOUR IDEA OF HOME TAKES SHAPE.

At **Febal Casa**, we believe that true Italian style emerges when beauty, quality and design come together with the freedom to create custom spaces that reflect the identity of those who live in them.

Our mission is to offer not just furniture, but a comprehensive home concept – consistent and coordinated in every detail. A holistic vision that spans the kitchen, living and bedroom areas, evolving into collections that communicate naturally and elegantly with one another.

# Total Home Furniture

ONE HOME,  
ONE **COORDINATED PROJECT**

The beauty of a home lies not only in its individual rooms, but in the harmony with which they converse. This is the essence of Febal Casa's **Total Home Furniture** philosophy: a way of living that goes beyond the boundaries between the kitchen, living, bedroom and relaxation areas, turning them into chapters of a single story.

Every detail contributes to a harmonious narrative – materials, colour palettes, finishes and proportions flow from one room to the next, creating a visual thread that gives the home its character and identity. It's not just about furnishing, but about designing an experience – living in a space where beauty and function-

ality effortlessly coexist. In this perfect balance, living becomes a form of personal expression. Each space communicates through a language of material and light, where every element – from furniture to accessories – plays its part within a cohesive and harmonious whole. It's the home seen as a system, not as a sum of objects: a visually appealing and functional ecosystem that reflects the style, rhythm and desires of those who inhabit it.

With Febal Casa, every choice becomes part of a greater design vision. The home takes shape as a space that evolves with those who live in it – ready to adapt over time without ever foregoing its stylistic consistency.

A home defined by harmony, where the kitchen, living and bedroom areas share the same design language. Each piece of furniture becomes part of a

unified project, where beauty and functionality intertwine to shape a complete and harmonious living experience.

**Comfortable,**  
*precious*  
and elegant

# ONDA

Design meets  
movement

## The new Febal Casa collection in collaboration with Zaha Hadid Architects

There is an energy that belongs to the sea – shaping coastlines, continuously transforming, never remaining still. It is from this primordial force that **ONDA** is born – the new collection by Febal Casa, created in collaboration with **Zaha Hadid Architects**, one of the most visionary firms on the international scene.

ONDA is not simply a furniture collection, but an experience in which **light, material and movement** become a design language. Its distinctive feature is the **metallic back-painted glass door**, delicately traversed by

soft ripples – an element that translates the fluidity of water and its ever-changing reflections into an architectural surface. Applied to the **sideboard** and the **kitchen island**, this door transforms volumes into dynamic, sculptural forms, capable of shifting with the light and bringing new depth to the domestic space.

The collection bears the signature of a special encounter: on one side, the precision and design tradition of Febal Casa; on the other, the organic fluidity that has always distinguished Zaha Hadid Architects. A dialogue be-

tween nature and architecture takes shape in furniture pieces that go beyond function to become **sculptural elements** – true protagonists of the home environment.

The **ONDA sideboard**, with its suspended lightness and reflections that shift with the light, fits naturally into any setting, enriching the living space with a refined touch. The **kitchen island**, meanwhile, becomes a design statement: a volume that does not simply organise the space but redefines it, blending beauty and functionality in a single gesture.

ONDA – Zaha Hadid Architects is much more than a collection: it is a manifesto of beauty that combines **craftsmanship and innovation**, tradition and vision. A project that marks a new chapter for Febal Casa and paves the way for a more fluid, sensory and timeless concept of contemporary living.

*What we love about this project is fulfilling the dream that designers and artists have long pursued: recreating the subtle beauty of Nature.*

**PATRIK SCHUMACHER**  
PRINCIPAL, ZAHA HADID ARCHITECTS

# LIBESKIND022

When light  
becomes matter

## The Febal Casa collection in collaboration with Daniel Libeskind

There are pieces of furniture that do more than fill a space – they transform it. **Libeskind022**, the collection created by Febal Casa together with **Daniel Libeskind**, is one of these: a project that turns the door panel into an architectural gesture, capable of bringing light and movement into the home.

Its defining feature is light. Sculpted lines and dynamic surfaces create ever-changing reflections that shift with

the hours of the day, engaging in a constant dialogue with its surroundings. A design that is both minimal and intricate, created to harmonise naturally with contemporary lifestyles.

The strength of Libeskind022 lies in its **versatility**: the same door panel becomes the focal point of a sophisticated **sideboard**, a **kitchen island** that takes on the presence of a domestic sculpture, or a **living**

**system** with architectural impact. An approach that perfectly reflects Febal Casa's **Total Home Furniture** philosophy – a coordinated system that flows throughout the home, ensuring visual and stylistic continuity.

As Libeskind states: *"The use of light in architecture has a timeless dimension, independent of passing trends and fashion."* With **Libeskind022**, this vision becomes reality: a door that does more than close a space – it shapes it, transforming it into a living, sensory presence.

Bearing the signature of one of the great masters of international architecture, the project translates material into emotion, opening a new chapter in Febal Casa's design story – where matter meets light and becomes emotion.

*The use of light in architecture has a timeless dimension, independent of passing trends and fashion.*

## GUIDE

# Your ideal kitchen

## Six ideas for designing the **home's most lived-in spaces.**

The kitchen is no longer just the place where meals are cooked. It is the beating heart of the home – a place to meet, socialise and create memories. Thus, choosing it carefully means designing a space that truly reflects your way of living. Here are six ideas to help guide your choice.

**1. Style as a statement of personality**  
Classic and elegant, industrial and urban, minimal and bright, rustic and welcoming – the style of your kitchen tells your story. Let yourself be guided by the character you want your home to express, not just by passing trends.

**2. Size matters**  
It's not just about measurements – think about how you'll move, cook and live in the space: whether or not there'll be a central island, or if the kitchen should connect to the living area. True functionality is born from a well-conceived design.

**3. The layout of the furniture**  
The "triangle" rule – with the fridge, sink and hob well connected to one another – remains a starting point, but today modular kitchens can adapt to any architecture: linear, corner, U-shaped, with island or peninsula.

**4. The right appliances**  
It's not about having everything, but about having what truly makes everyday life easier. It's better to invest in efficient appliances suited to your habits rather than collect devices destined to remain unused.

**5. Worktops and finishes**  
The kitchen worktop is the stage for every preparation: it must be practical, durable and pleasing on the eye. Tiles and splashbacks, on the other hand, are the stylish touch that can transform the space into a setting full of character.

**6. Materials that make the difference**  
Warm wood, industrial metal, minimalist glass, versatile laminates: each material brings with it a world of impressions. The choice is not only about functionality, but also the emotion you want to feel as you walk into your kitchen every day.

In the end, there is no such thing as the perfect kitchen – only the one that is perfect for you. A kitchen that's not only practical, but one that welcomes you and tells your story, day after day.

# Character that *does not go unnoticed*

## Origina Fluted Linear-Edged Door

**Authentic materials and refined textures** define an exclusive space, where the **Atlas island** with **Fluted Door** becomes the heart of the kitchen: pure lines, bold forms, timeless elegance.

The **Lapis system** integrates technology, housing the ovens with ease and completing the space with lightness and versatility, offering custom solutions within a harmonious, contemporary design.

## Origina L-Shaped Door

**Functionality and elegance** meet in harmonious balance, where metallic surfaces intertwine with natural grain patterns in refined and unexpected contrasts.

**The worktop, with a sculpted 45-degree edge**, defines pure, continuous lines, while the volumes flow in a regular rhythm, creating an orderly, bright and deeply contemporary space, where every detail celebrates the precision of Italian design.

# Lines that speak of *modernity*

## Origina Door with a 37-degree sculpted edge

Refined colour combinations and smart solutions transform the kitchen into a unique experience. The peninsula interacts with the base units in a play of harmonious contrasts, while the wall of tall units becomes an elegant backdrop that amplifies the space.

The **Sinua side panel**, with its bevelled profile, outlines the peninsula, lending continuity and fluidity to the composition. The **Daily open tall units** connect the kitchen and living area with ease, creating a light, functional passageway that brings character and coordination to the entire home.

## Fluidity that furnishes the space

## The classic that *speaks to the present*

### Origina Wood Framework Door

A contemporary spirit meets tradition. The kitchen with **wood framework door** offers timeless sophistication and a contemporary allure.

Details such as bridge handles and metal knobs become distinctive features – functional and decorative at once, tracing geometries with an elegant and contemporary character.

# Reflections that *bring the space to life*

## Origina Aluminium Framework Door

**Precious materials and luminous reflections** merge in a play of contrasts that catches the eye and turns the kitchen into an experience of style. The **Atlas island** stands out as the scenic heart of the composition: pure lines and raised

base units highlight its presence, while the **wall panelling** echoes the same texture, creating a harmonious visual balance. Full-height tall units and illuminated glass units expand the depth of the space, lending it an atmosphere of refined elegance.

## Origina Shaped Aluminium Door

**A kitchen that combines elegance and character.** The composition asserts itself with fluid lines and pure volumes, transforming the space into a warm and sophisticated environment. The drawers, in perfect continuity with the top, form a single, monolithic block, while the black profiles of the aluminium doors add a refined detail – the mark of a bold, contemporary style.

# Details that make *the difference*

# The simple gesture that *furnishes*

## Modula J-Profile Door

Essential lines and sophisticated colours define a warm, welcoming kitchen, where natural tones and refined details blend in contemporary harmony. A space designed for socialising, inviting you to enjoy every moment in style. Spacious, well-organised interiors house the oven and wine

cooler with elegance, transforming functionality into pure everyday beauty.

The fronts with **J-Profile** grip, sculpted directly into the door, complete the composition with a simple, natural gesture, lending the space a touch of essential design.

# Warm atmospheres, *refined design*

## Modula Linear-Edged Door

**An elegant fusion of materials and contemporary details** redefines the kitchen space, transforming it into a bright, refined and welcoming environment. The natural look of the surfaces intertwines with touches of vibrant colour, creating a balanced composition that adds style to everyday living. The **Meta shelves**, light and linear, enhance the architecture of the composition, while the dual LED lighting accentuates every object and creates a warm, enveloping atmosphere that accompanies each moment of the day.

## Modula C-Shaped Door

A space that speaks to the heart through its refined simplicity. The soft-toned doors are enriched by luminous details, while the large island, clad in materials with natural veining, becomes the scenic centrepiece of the composition: a sign of elegance and individuality that makes for a truly unique space. The **C-Shaped** handle traces a subtle, discreet line, enhancing the purity of form and attention to detail. Completing the ensemble, the **Ofiuco** ceiling hood in metal and glass – light and sophisticated – decorates the space with freshness while ensuring functionality and order in the kitchen.

## The art of *discreet detail*

## Harmony that *becomes experience*

### Modula Framework Door

A kitchen that maximises light and space, transforming into a peaceful retreat. Balanced volumes and natural tones define a welcoming, sophisticated environment, where the **framework door** with

integrated handle reflects attention to detail and timeless design. Work areas that open onto the living space encourage sociability, turning every moment in the kitchen into a special experience.

# A journey into *classic* elegance

---

An invitation to rediscover the authentic charm of tradition, reinterpreted with contemporary style and harmony.

---

**A classic that never ceases to inspire:** amid refined decorations, exclusive accessories and details that speak of Italian craftsmanship, the kitchen becomes a daily experience of beauty and authenticity.

# Exclusive details

## THE CHARM OF THREE-DIMENSIONAL SURFACES

The Fluted Door features three-dimensional wooden fronts with vertical slats, lending a natural and refined effect. Perfect for those who love tactile environments with a strong personality, yet equally suited to light, elegant compositions.

## BEAUTY THAT FLOWS WITHOUT INTERRUPTION

In the continuous-grain design, the veining runs seamlessly across doors and panels, creating a unique visual effect of continuity and harmony. A refined process, available on both smooth and fluted fronts.

## DETAILS THAT MAKE THE DIFFERENCE

A distinctive feature is the end unit with recessed handle: the groove profile continues along the side of islands, peninsulas or wall compositions to create a cohesive, seamless look. A touch of style customisable in all Origina finishes.

## THE SHOWPIECE OF THE KITCHEN

The Atlas island features pure lines and elegant proportions: the recessed base and perimeter plinth create a suspended, floating effect. A monolithic island that becomes the architectural heart of the kitchen, with raised base units and an unmistakable scenic presence.

## CURVES THAT BRING FLUIDITY

Soft lines and rounded edges with a 20 mm radius on the Sinua side panel give the kitchen a fluid, harmonious look. Perfect when paired with shaped worktops, island tops or tall units, it adds a sense of continuity and refinement to the overall composition.

## FUNCTIONALITY THAT UNITES AND DIVIDES WITH STYLE

The Daily tall unit with swing door combines practicality and style, discreetly concealing pantries and laundries, or serving as a refined passage between rooms. Versatile and available in multiple finishes, it brings order and visual coherence to the design.

## LIGHT TRANSPARENCIES FOR EVERYDAY ELEGANCE

The trays with glass inserts are an exclusive detail that adds sophistication to the kitchen: metal trays with smoked glass inserts combine lightness and transparency, turning a functional element into a mark of elegance.

## APPLIANCES WHERE YOU LEAST EXPECT THEM

The Lapis system is much more than a bookshelf: it is a versatile furnishing concept that connects spaces, houses appliances and showcases objects and accessories. Aluminium uprights, vertical LED lighting and customisable modules offer endless combinations to create seamless continuity between the kitchen and living area.

# Dining area

THE PLEASURE  
OF **BEING TOGETHER**

## Ideas and inspirations to transform the dining room

**T**he dining area is no longer just a space for sharing meals: today, it is the true heart of the home – a place for conversation, laughter and moments spent with those we love. It marks the transition from everyday life to the pleasure of spending time together – a space that deserves to be designed with care and attention.

The table and chairs are the undisputed protagonists. They can harmonise with each other or create contrast through a mix & match approach that adds vitality to the space. Be it the warmth of wood or the light touch of metal, every choice reveals something of those who live there and their idea of sharing life together.

But the real secret of a well-designed dining area is light. A pendant lamp positioned above the table creates a focal point that draws the eye and defines the space, especially in open-

plan settings. Warm tones, such as amber white, envelop the room in a relaxing atmosphere, perfect for intimate dinners and long conversations.

Colour also plays a key role: from neutral, sophisticated shades to more intense, vibrant tones, the secret lies in finding a balance that makes the space welcoming yet never ordinary. And the walls? They can become striking backdrops thanks to paintings, sideboards or wall units that enrich the room with personality and character.

Finally, a touch of green: plants and flowers bring freshness and vitality, echoing the rhythm of the seasons and adding a natural touch that makes every meal more enjoyable.

After all, the dining area is more than just a room – it's an experience, an invitation to pause, share and rediscover the pleasure of living the home together.

# The timeless charm of the *sideboard*

Once a simple storage unit, the sideboard has become an icon of contemporary living. No longer just a space for storing, but a design element that furnishes, displays and expresses the personality of those who live in the home. Between essential design, precious details and plays of materials, the sideboard has reclaimed its place as the protagonist of the living area, offering solutions that combine functionality and elegance.

## AURORA SIDEBOARD

Light in form and sophisticated in detail, the Aurora sideboard plays with the transparency of glass, the precision of metal and interior finishes. Designed to both store and display, the tall version can transform into an elegant bar kit – perfect for entertaining.

## LEAF SIDEBOARD

Balance and precision come together in an essential design enhanced by a built-in handle. Available in two heights, Leaf reinterprets the sideboard as a mark of understated, elegant style.

## SCENARIO SIDEBOARD

A textured effect reminiscent of natural stone, which lends the living area a unique and striking character. Coordinated with bookshelves and wall panelling, Scenario ensures stylistic coordination and continuity, creating original compositions with strong visual impact.

## INK

Simple yet sophisticated, Ink is the coffee table that complements everyday living. Perfect for a cup of coffee or for displaying the objects you love.

## RIO

Where design meets function: Rio holds magazines and newspapers with ease. A companion for relaxation that adds character to your space.

## SERIF

Essential lines and a lightweight structure define a coffee table with elegant character. Modular and versatile, it adapts to any interior with style.

## DUTCH

Essential lines and discreet sophistication make Dutch a pure expression of style. Versatile and functional, it lends the living room a timeless elegance.

## MOTION

A perfect balance of form and proportion. Motion enhances any space with lightness and customisable elegance.

# Coffee tables, small but significant

They're not just occasional tables – coffee tables accompany every part of our day, from morning coffee to late-night conversations with friends. Small in size but big on style, they furnish the living space with personality and character, transforming it into a welcoming, distinctive environment.

# Overhead bookshelf

**ELEGANCE SUSPENDED**  
BETWEEN FUNCTION AND DESIGN

There's something fascinating about the overhead bookshelves: furniture that does more than store books, becoming true interior architecture. With structures that embrace the wall and extend both vertically and horizontally, these bookshelves don't merely occupy space – they define it, creating continuity and harmony.

Compared to traditional shelving, the overhead composition offers a striking, almost theatrical visual impact. Two side sections are joined by a horizontal element that “frames” the space, transforming it into something special. It is a solution that works just as well in large rooms – where it takes centre stage – as in smaller spaces, where it helps maximise vertical surfaces.

Its secret weapon is versatility. Thanks to modular and customisable systems, the overhead bookshelf

can be tailored with closed compartments or open shelves, symmetrical or asymmetrical layouts, and dynamic combinations of colours and materials. Each composition tells a different story: some use it to create a cosy reading corner, others transform it into a multimedia wall framing the TV, integrate it into a home office, or even frame a doorway in a child's bedroom for a playful effect.

It's not just about storage – it's about character. An overhead bookshelf can become a backdrop for the relaxation area, a divider between open-plan spaces or a frame that holds memories, photographs and cherished objects.

In every setting, it carries a clear idea: the appeal of furniture that combines beauty and functionality, transforming space into a living experience.

# ***Diciotto,*** the freedom to design your living space

## **When modularity becomes a way of life.**

There are systems that don't just organise space – they reinvent it. With Diciotto, every wall becomes a personal story told through volumes, textures and details that reflect the style of those who live in the home.

Diciotto is the essence of modularity: a practical, versatile and elegant system designed to interpret every lifestyle through endless compositional possibilities.

Its strength lies in limitless customisation – from striking bookshelves to equipped walls, all the way to the refined wine panelling that transforms the living area into an exclusive home cellar. With Diciotto, beauty and functionality coexist in perfect harmony, giving shape to a living space that reflects your identity and tells your idea of home.

## **When design meets the perfection of detail.**

Essential lines, harmonious proportions, pure volumes: Quarantacinque is the system that interprets modern living with timeless elegance. Its modular design offers endless possibilities, conceived to meet the needs of sociability and relaxation with style.

The 45° cut workmanship, applied to the wall units and base units, is its signature feature – a refined detail that enhances the geometric precision of the design and lends lightness to the overall composition. With Quarantacinque, the living space becomes fluid and sophisticated, ready to embrace everyday moments with discreet yet unmistakable beauty.

# ***Quarantacinque,*** the art of precision

## When design meets the everyday pleasure of living.

Not just a bookshelf, but a system that takes centre stage in the living area. Trenta is Febal Casa's interpretation of a key element that both organises the space and enriches it with style and personality.

Thanks to its modular design, it adapts to countless configurations: it can store, display, divide spaces and create custom atmospheres, always consistent with your way of living. Trenta is more than a piece of furniture – it is the heart around which everyday life takes shape, transforming every wall into a unique and sophisticated story.

## *Trenta*, the defining feature of the living area

## *Lapis*, lightness that furnishes the space

### A system that combines precision with compositional freedom.

More than just a bookshelf: Lapis is an architectural statement capable of redefining interiors with both elegance and functionality. Configurable as a wall composition or as a central feature, it becomes a focal point in both the living area and the bedroom – transforming as needed into storage, a divider or a striking frame.

Its strength lies in personalisation: glass, metal or panel shelves, together with wall units and base units in various modules, offer infinite combinations to meet every need and create ever-evolving atmospheres. Lapis is the perfect balance between light aesthetics and precise design – furniture that invites you to imagine the home as a fluid, dynamic and deeply personal space.

# Exclusive details

## A TRAY OF LIGHT AND MATERIAL

The tray top of the Diciotto system is a detail that immediately draws the eye: a raised-edge surface with a bold frame and a double, backlit base that transforms any surface into an elegant design feature. Available in different finishes, it offers new compositional possibilities and adds an exclusive touch of style to the living area.

## THE CHARM OF A DOMESTIC WINE CELLAR

The Trenta bookshelf is a space all to be lived: shelves and back panels equipped with bottle holders transform the living area into a refined, scenic cellar where every bottle becomes part of the design. A solution that brings sociability and design together with ease.

## LIGHT THAT SHAPES THE SPACE

Lighting takes centre stage, enriching modular systems with innovative solutions: backlit panels that add depth and adjustable spotlights that highlight every detail. A luminous composition that redefines the experience of living the home.

## GUIDE

# *The sofa with chaise longue*

A piece of furniture that transforms the **living room** into a **space for living**

The **sofa with chaise longue** is more than just a furnishing – it is an architectural feature that redefines the space and reflects the style of those who live in it. Elegant and versatile, it becomes the heart of the living area – an invitation to relax, socialise and enjoy the pleasure of feeling at home.

#### Choosing the right model

The beauty of the sofa with chaise longue lies in its ability to adapt to every need. It can transform into a bed for guests, offer hidden storage compartments ideal for compact homes, or integrate adjustable headrests for personalised comfort. Each configuration has its own identity, to be chosen according to lifestyle and available space.

#### Materials and style

The character of the sofa is expressed through its materials: soft fabrics, elegant leathers and textured surfaces that

play with the light. The choice is not just a matter of aesthetics, but of the emotion you want to feel each day. Febal Casa collections interpret these aspects through modular, refined designs that combine comfort and style in perfect balance.

#### Where to place it

Against a wall, in the centre of the room, or as a divider between the kitchen and living area in open-plan spaces – the chaise longue offers endless design possibilities. In every configuration, it becomes a focal point, capable of organising the space and transforming the atmosphere.

#### The finishing touch

A rug that frames its volumes, a contrasting coffee table, a lamp that highlights its contours – every detail completes the sofa with chaise longue, transforming it into an oasis of style and everyday comfort.

# Where you sit, *emotion begins*

The sofa is more than a piece of furniture: it is a place to relax, talk and dream. With Febal Casa, each model finds the perfect balance between comfort, design and personality. Welcoming contours, fine materials and tailored details give life to spaces that invite you to experience beauty every day – naturally and with style.

## Camden

Camden blends the charm of classic design with timeless elegance. Its soft lines and graceful curvature define a warm, refined space where comfort and style coexist in perfect harmony. Crafted from high-

quality materials with meticulously finished details, Camden conveys a genuine sense of comfort, adapting effortlessly to both classic and contemporary interiors.

## Melrose

Featuring a bold, contemporary style, Melrose expresses modern elegance with a functional spirit. Its soft, well-proportioned shapes invite relaxation, while the modular structure allows you to personalise the space according to your needs. A sofa designed to become the heart of the living area – essential, versatile, and able to turn every moment into pure harmony.

# More than comfort

Armchairs are small architectures of relaxation that furnish with character and welcome with elegance. True personal refuges that turn every corner of the home into an intimate, sophisticated space to be lived in.

## Vivienne

Welcoming and versatile, Vivienne is an armchair that invites you to indulge in the pleasure of relaxation. Its elegant lines make it a discreet focal point in any setting, while the swivel base – available in both star-shaped and circular versions – enhances the feeling of freedom and movement.

## Astor

Astor embodies the meeting point between comfort and design: a generous seat that embraces and supports, and a refined aesthetic that enriches the space. The swivel base, available in either a circular or star-shaped form, adds a practical touch without compromising on style.

# The same charm, in a more intimate form

Beyond the armchairs – true icons of relaxation – accent chairs bring the same elegance to a more compact dimension. Small only in proportion but great in style, they complete interiors with a sense of lightness and personality, becoming precious details that make all the difference to a room's atmosphere.

## Jane

Modern and distinctive, Jane is the accent chair that furnishes interiors with freshness and character. Its sophisticated design enhances refined environments, offering comfort with a distinctly contemporary elegance.

## Isabelle

A timeless classic that captivates with its discretion and style. Isabelle brings harmony and impeccable comfort to the most exclusive spaces, transforming them with a touch of timeless sophistication.

# *The perfect wardrobe*

WHEN ORGANISATION  
BECOMES STYLE

A well-organised wardrobe is not only a matter of order: it is an act of care towards oneself, a way to make each day simpler and to transform the bedroom into a harmonious and functional space. There's no need to revolutionise the room – just a few thoughtful adjustments can turn a piece of furniture into a true everyday ally.

Clothes rails and hangers, for instance, are the first partners in keeping a wardrobe tidy. Choosing them carefully means not only protecting your garments but also gaining valuable space. Drawer units and storage boxes, meanwhile, keep everything within easy reach – from shoes to bags to delicate clothing.

The full-length mirror is another element that transforms the space. Placed near natural light or paired with carefully designed lighting, it turns getting dressed

into a true ritual of style. Because the wardrobe is not just a storage unit – it is a space to be lived.

Light, in fact, plays a fundamental role. An integrated LED system or motion sensors that respond to movement make even the most hidden garments visible, adding both practicality and a dramatic touch.

And then there are the organisers – small details that make all the difference. Tie racks, jewellery trays, accessory dividers. Accessories that make everything not only easier but more beautiful, giving the wardrobe the feel of a personal boutique.

In the end, the ideal wardrobe is not the largest, but the one that best reflects your way of living. An orderly, elegant and functional space that accompanies everyday gestures with natural ease.

# Don't call it just a *wardrobe*

Wardrobes are no longer simple storage elements but true design pieces that organise the space with style and personality. From functional furniture, they have evolved into protagonists of the bedroom, bringing order and beauty together in perfect harmony.

## Profile / Block Hinged Door

A wardrobe that commands attention with elegance. The Profile / Block door, upholstered in faux leather and accented with a metallic handle that serves as a jewel-like detail, creates a

material contrast of striking appeal. Matte lacquered surfaces and bold proportions turn the wardrobe into an architectural statement that dominates the room, adding character and refinement to the entire bedroom space.

## Profile / Leather Hinged Door

A wardrobe that dresses the room with elegance. The metallic frames trace the walls like architectural profiles, while the faux-leather finish lends the atmosphere a warm, sophisticated tone. The handle, sculpted with a smooth, ergonomic curve, becomes a jewel-like detail, framing doors of exclusive charm. Inside, the same softness continues in the leather-covered hanging bar, for an experience of style that goes beyond the surface.

## Profile / Solid Hinged Door

Essential lines and pure surfaces transform the wardrobe into an elegant, striking presence. The doors, like large contemporary canvases, frame the space with understated sophistication. Inside, functional fittings and aluminium profiles reveal a technical beauty that becomes a precious detail – merging order and style in a unique living experience.

# Mirror of *desire*

Wardrobes are no longer merely storage spaces, but small everyday stages – places where order, beauty and functionality coexist, transforming daily gestures into elegant rituals.

## Mirror Nook

Not just a nook – a space dedicated to you. The wardrobe with bi-fold door conceals a backlit mirror inside, transforming the moment of choosing what to wear or

getting ready into an intimate, sophisticated ritual. A corner of vanity that brings light into everyday life, making even the simplest gesture feel special.

# Walk-in wardrobe

**THE DREAM TAKES SHAPE**  
DIMENSIONS, PROPORTIONS AND  
SOLUTIONS FOR EVERY SPACE

There is a desire shared by many design enthusiasts: to have a walk-in wardrobe all to themselves. It is not merely a place to store clothes and accessories, but a true sanctuary – a reflection of personal style that makes everyday life feel special.

Compared to a traditional wardrobe, the walk-in version has the advantage of adaptability: it can extend along a wall, embrace a corner, or become a room of its own. Linear, corner-based, open or bespoke, it always manages to interpret the room's constraints and turn them into design opportunities.

Its magic lies in the proportions: just a few square metres are enough to create a functional space – but it's the design that makes the difference. The ideal solution balances closed areas and open ones, with clothes rails, drawer units and shelves to hold not only clothes and

shoes but also accessories and small personal details that tell your story.

Even in smaller rooms, a walk-in wardrobe can find its place. By making use of the room's height, opting for sliding doors and incorporating large mirrors, it is possible to create a bright, airy environment that feels more spacious than it truly is.

And when the architecture is distinctive – such as a sloping attic or the space behind the bed's headboard – custom design becomes the key to creating tailored solutions that make the most of every centimetre.

Ultimately, designing a walk-in wardrobe means shaping a daily ritual: opening the doors and stepping into a space that is not only functional but emotional. A small luxury that brings order, beauty and the sensation of having a private boutique at your fingertips.

# The luxury of choosing *every day*

The walk-in wardrobe is no longer just a place to store clothes – it is a space that tells your story. An intimate, organised and luminous environment that transforms the simple act of getting dressed into a pleasure to be savoured slowly.

## Panel Walk-in Wardrobe

More than a walk-in wardrobe, a space where every detail speaks of elegance. The warmth of walnut envelops the room, while contrasting panels create rhythm and depth. Drawer units with transparent smoked-glass fronts reveal their contents like a private display case, alongside customised

solutions featuring refined handles and exclusive finishes. An environment that turns dressing into an exclusive ritual, defined by order, beauty and everyday harmony

## Frame Walk-in Wardrobe

An essential, refined design that balances precision and lightness. Slim lines define an airy, contemporary space, while integrated lighting highlights every detail – enhancing fabrics and accessories as if in a private boutique. The warm, natural finish brings balance and harmony, transforming the walk-in wardrobe into a treasure chest of timeless elegance. Configurable in every aspect, the frame adapts to your desires, creating a unique, intimate and visually striking environment.

# Exclusive details

## DETAILS THAT DRESS WITH STYLE

A **hanging bar** is no longer just functional: the **leather** upholstery turns it into a sophisticated, refined element. Its rectangular shape and the warm tones of its finishes make it a detail that enriches any walk-in wardrobe.

## ELEGANCE AT YOUR FINGERTIPS

The **leather-upholstered handles** become a distinctive feature. Minimal yet luxurious, they lend character to wardrobes with a tactile touch that combines comfort and sophistication.

## LUXURY YOU CAN TOUCH

The **leather-upholstered shelves** express a new way of living with order. Sophisticated surfaces that unite practicality and style, turning every daily gesture into an elegant experience.

## REFLECTIONS OF CHARACTER

The drawers with **smoked mirror fronts** capture the light and amplify the space, while the **integrated aluminium handle** completes the design with discretion. A perfect balance of functionality and contemporary appeal.

# Light that furnishes

## THE CHANDELIER IN THE BEDROOM

### A detail that transforms the atmosphere

There is one element that can change the entire mood of a bedroom more than any other: light. It's not just about functional lighting, but a genuine expression of style. The chandelier, with its suspended presence, becomes an architectural statement – defining the atmosphere, adding elegance and expressing the personality of the room's inhabitant.

### A matter of proportion

Even before style, comes balance. Too small, and the chandelier fades into the background; too large, and it takes over the room. The ideal choice is a diameter proportionate to the room's size and ceiling height, allowing the light to fall harmoniously without disrupting the room's usability.

### The right position

In most cases, the chandelier finds its natural centre above the bed – though this is not a fixed rule. In rooms with lower ceilings, you can experiment with creative alternatives such as sconces, discreet spotlights or integrated LED systems, which create a soft, enveloping glow.

### A style that represents you

Modern and minimalist, classic with glass and fabric shades, or bold designer pieces that take centre stage – the chandelier reflects the personality of the room. In a total white bedroom, a black model alone can create a striking focal point, while in a more traditional setting, a glass or brass chandelier conveys timeless elegance.

### The magic of warm light

The choice of light colour makes all the difference. Warm, soft tones are perfect for creating a relaxing atmosphere, while smart lighting solutions allow you to adjust brightness and shades throughout the day.

In the end, furnishing with a chandelier is not just about lighting – it's about giving the bedroom a soul, making it more welcoming, personal and distinctive. Because light doesn't just furnish spaces – it shapes emotions.

# Where dreams meet design

The bed is not merely a place for rest: it is an intimate refuge, an oasis of well-being that defines the style of the bedroom and becomes its beating heart. Lines, materials and details combine to turn it into a sensory experience – one that accompanies the night and welcomes each morning.

## Jacques, elegance that embraces

The Jacques bed enchants with its soft, enveloping headboard upholstered in fabric – a reassuring embrace. A detail that blends comfort and sophistication,

transforming rest into an everyday ritual of style and elegance. Each night becomes an experience of timeless beauty.

## Raphael, timeless elegance

The Raphael bed, with its fabric-upholstered headboard and frame, lends the bedroom an aura of intimacy and sophistication. Paired with Gala bedside tables and complemented by the Polar mirror, it defines a harmonious, refined setting where every detail helps create a true retreat of style and comfort.

# Where imagination *takes shape*

Kids' bedrooms are not just places for sleeping – they are miniature worlds where children play, grow, learn and form their earliest

memories. Here, colour, light and functionality intertwine to create a space designed to accompany them through every stage of growth.

## A sanctuary that radiates joy

A kids' bedroom filled with warmth and serenity, where natural tones and soft materials create a cosy, reassuring atmosphere. The end bookshelf becomes a corner dedicated to stories and imagination, while the wardrobe

and equipped panels offer both order and practicality. The Moonie Frame bed invites children to rest and dream, embraced by furnishings that blend in perfect harmony to create a joyful atmosphere.

# The room of first *great adventures*

A teenager's bedroom is no longer just a place to sleep – it's a world where passions, friendships and the first dreams of independence take shape. Here, study, relaxation and personality come together in a space that grows with them, adapting to their needs and reflecting their identity.

## A space that grows with them

In this room, every detail plays a part: the sliding wardrobe adds elegance, the upholstered bed provides comfort, while the bookshelf and desk define areas for study and creativity. Equipped panels and drawer units add functionality without compromising style, transforming the room into a versatile, personal space full of energy.

## Even “behind the scenes”, style matters

Not only the kitchen, living and bedroom – technical spaces, too, express the quality of contemporary living. Laundries, wardrobes and storage areas become organised, harmonious environments where functionality and design go hand in hand. Because the beauty of a home also lies in its hidden details.

## Order that becomes comfort

Custom-designed service units transform every square metre into a valuable ally. Smart solutions such as laundry accessories, pull-down clothing systems and modular units make everyday tasks both practical and enjoyable. A design that is understated yet refined, bringing elegance even to the most functional areas of the home.

## Our services

### INFORMATIVE MATERIAL

– complete and detailed

### GUARANTEED TRANSPORT

– with deliveries organised to optimise space and routes

### A DESIGN TEAM

– qualified and ever-present

### PRICE TRANSPARENCY

– and made-to-measure quotations

### AFTER-SALES ASSISTANCE

– that starts directly from the point of sale and extends to the company itself

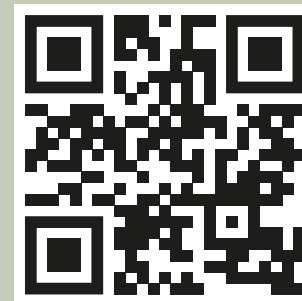

### ADVANCED GRAPHIC SOFTWARE

– for customised photo-realistic simulations

### PROFESSIONAL ASSEMBLY

– carried out by specialised collaborators

## VIRTUAL TOUR

Experience a total immersion in Italian design.

Discover our interactive showrooms and be inspired by the elegance and innovation of Febal Casa furniture.
